

# MEDICAL ROBOTS FOR RURAL AREAS

## 医疗下乡机器人 ▶

### 产品概述

医疗下乡机器人是一款专为基层医疗机构设计的智能医疗设备，旨在解决偏远地区医疗资源不足、医疗服务水平不高等问题，提高乡村居民的医疗质量和健康水平。该机器人结合了先进的医疗技术、人工智能和机器人技术，为乡村居民提供便捷、高效的医疗服务。

### 功能介绍

	• 健康检测		• 远程问诊		• 健康档案
	• 互联网医院		• 体质辨识		• 快捷登录

- ✓ **健康检测**：支持中西医检测，包括体温、血压、血氧、舌诊、面诊、脉诊等检测能力，方便乡村人群更好管理身体健康
- ✓ **远程问诊**：可实现医生患者远程视频问诊，并可通过远程问诊查看患者检测报告等信息
- ✓ **健康档案**：将患者基本信息、问诊记录、检测报告等数据归档，建立居民健康档案
- ✓ **互联网医院**：以互联网为载体，实现在线医生、在线药房等形式的医疗服务
- ✓ **体质辨识**：通过中医检测数据生成体质辨识报告
- ✓ **快捷登录**：可通过人脸、微信、身份证等形式进行登录

### 产品特点：

中西医检测

远程诊疗

健康档案

体质辨识

健康教育

可扩展定制硬件及功能

# MEDICAL SERVICE ROBOT FOR RURAL AREAS

## PRODUCT OVERVIEW

The medical service robot for rural areas is an intelligent healthcare robot specifically designed for primary medical institutions, aiming to resolve the shortage of medical resources and limited medical services in remote regions, while improving healthcare quality and wellness standards for rural populations. The robot integrates cutting-edge medical technologies, artificial intelligence, and robotic systems to deliver convenient and efficient medical services to rural residents.

## FUNCTION INTRODUCTION

	HEALTH CHECK		REMOTE CONSULTATION		HEALTH RECORDS
	INTERNET HOSPITAL		CONSTITUTION IDENTIFICATION		QUICK LOGIN

### Health Check:

Supports integrated Traditional Chinese and Western medicine diagnostics, including: body temperature monitoring, blood pressure measurement, blood oxygen saturation, tongue diagnosis, facial complexion analysis, pulse diagnosis and other examinations – enabling rural populations to effectively monitor their health status.

### Remote Consultation:

Enables remote video consultations between doctors and patients, and allows viewing of patient test reports and other information through remote consultation.

### Health Records:

Archives patient basic information, consultation records, test reports, and other data to establish a health record for residents.

### Internet Hospital:

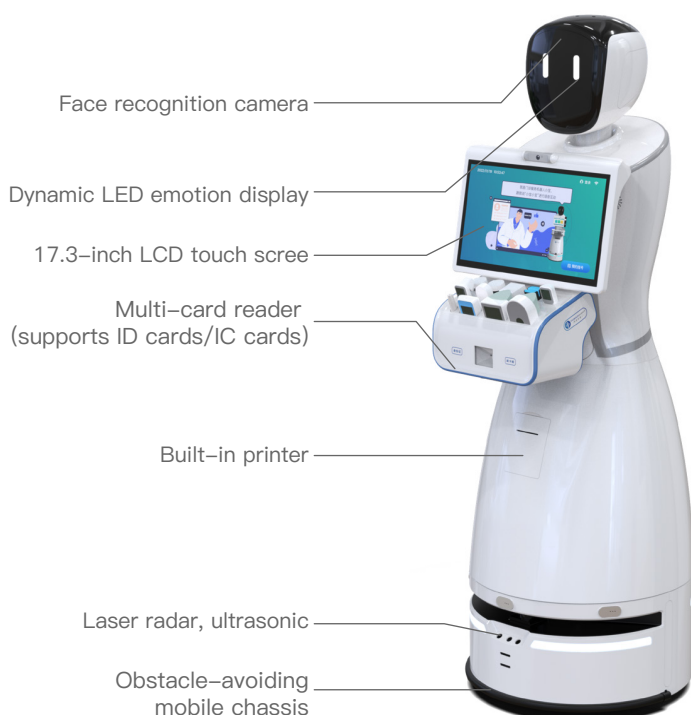

Leverages internet connectivity to deliver comprehensive medical services including: online physician consultations and digital pharmacy solutions.

### Constitution Identification:

Generates personalized Traditional Chinese Medicine constitution reports based on diagnostic data analysis.

### Quick Login:

Login can be performed through facial recognition, WeChat, ID card, and other forms.

## Product Features:

Traditional Chinese and Western medicine detection

Remote diagnosis and treatment

Health records

Constitution identification

Health education

Expandable customized hardware and functions
